

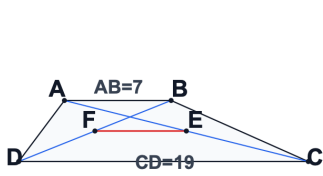

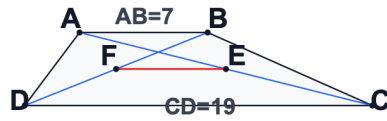

Diagram size / viewport experiment

Columns are final display widths. Rows test canvas aspect, viewport tightness, and label size.

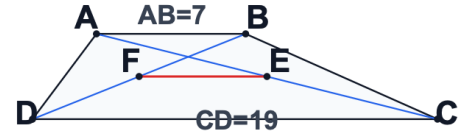

720x520 loose viewport, label 44px

50mm

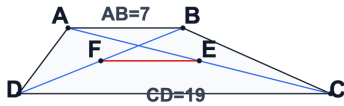

60mm

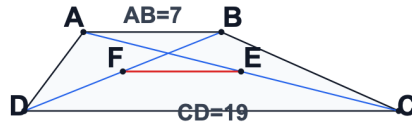

70mm

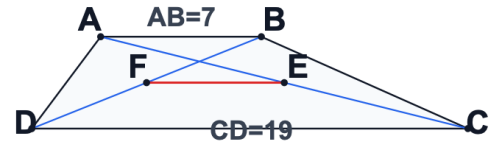

720x520 tight viewport, label 44px

50mm

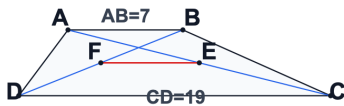

60mm

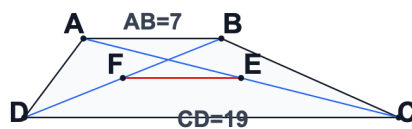

70mm

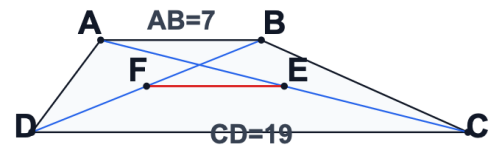

720x360 tight viewport, label 44px

50mm

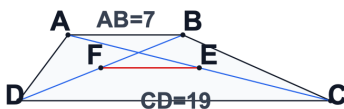

60mm

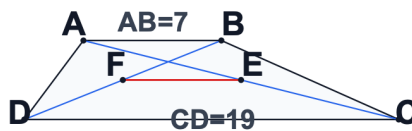

70mm

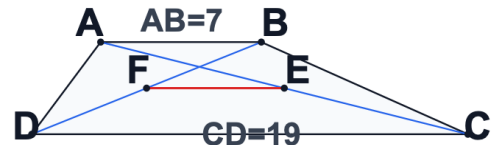

720x360 tight viewport, label 52px

50mm

60mm

70mm

Tight viewport means the diagram's world bounds hug the actual geometry more closely; 720x360 reduces vertical whitespace for landscape geometry.
